Hoof Shoe Tubbease™

Tubbease™ was developed in New Zealand with the aim to create a breathable treatment shoe for problem horse hooves (e.g. sole ulcers). The supplied hook and loop tapes mean Tubbease™ is easy to attach to the horse's leg.

- can escape upwards meaning no heat or humidity is trapped within the shoe
- the rubber-coated base reliably prevents moisture from entering and simultaneously ensures that the treatment fluid remains on the hoof
- the optimum climate within the shoe means the hoof retains its natural strength
- the thick EVA insole reduces pressure pain for the horse (e.g. with sole ulcers) and extends the life of Tubbease™
- various remedies to treat abscesses, thrush, hoof injuries, hoof outbreaks etc. can be used with Tubbease™
- tubbease™ design is protected (NZ 417646)
- EVA insert not included

Important: only use during stall rest

Aesculap Cutter head SnapOn

Cutter heads from Aesculap Schermaschinen are precision parts with a claim to perfection. The cutter head determines the performance of every clipper. The SnapOn cutter heads from the metal forge in Suhl/Thuringia are genuine „Made-in-Germany“ products. Exceptionally high-quality cutting tools are manufactured from top-quality carbon blanks in several production stages in accordance with medical technology guidelines. Except for the hardening process, the parts never leave the production facility.
